CT joins the Fundación Círculo de Tecnologías para la defensa y la seguridad

Madrid, January 30 2023,- CT has joined the Fundación Círculo de Tecnologías para la defensa y la seguridad, a meeting point for government, academia and the defense and security technology industry.

The company formalized its membership in an official presentation held during the last meeting of the Foundation's Executive Committee, at GMV's headquarters.

With this collaboration, CT aims to strengthen links with other key players in the defense sector. The foundation is a forum for reflection, debate and the exchange of information and experiences between all the people, entities and organizations in the defense and security technologies sector. Furthermore, it represents a virtuous circle between government, universities, PRIs and industry, forged on the pillars of collaboration and trust.

CT will be a very active member of the foundation, participating in the monthly meetings of its executive committee.

About CT

CT is a leading technological company that provides innovation and engineering services in the aeronautical, space, naval, automotive, rail, energy and industrial plants sectors. CT pushes the boundaries of technology through innovation, raising performance to new levels throughout the entire life cycle of products, from design, manufacturing to post-sales support. With over 30 years of experience, today CT's success is driven by more than 1,800 talented employees based in seven countries, spanning three continents. www.thectengineeringgroup.com
