

## CT joins forces with the Ellas Vuelan Alto Association to boost the visibility of female talent in the aerospace industry

**Madrid, October 8, 2024.** CT, a leading engineering company in technological innovation throughout the product life cycle, has formalized its adhesion to the Association Ellas Vuelan Alto (EVA), as a collaborating company.

David Prieto, CEO of CT, and Gema Martín del Burgo, president of EVA, have signed the collaboration agreement in a ceremony held at CT's headquarters in Getafe, Madrid, together with other representatives of the company, including Delia Rodríguez de Llera, director of Innovation and José Evelio González, director of CT Spain.

With this incorporation, CT reaffirms its commitment to the creation of support networks between organizations in the aerospace sector, promoting the visibility and development of female talent, as well as equal opportunities. It also seeks to foster STEM careers among the new generations, especially among young women.

During the signing ceremony, Gema Martín del Burgo, president of EVA, said: *"It is a pleasure for EVA to welcome CT as a new partner. This incorporation demonstrates the company's commitment to the values promoted by our association and we look forward to a fruitful relationship. From now on, we see CT as a strategic partner and we will help the organization achieve its goals in diversity and talent."*

For her part, Delia Rodríguez de Llera expressed, *"We are very proud to join our efforts with the more than 50 companies that EVA brings together under its mission. At CT, we strongly believe in the importance of promoting female talent in the aerospace sector, a field that needs diversity to continue innovating and growing. By joining EVA, we reaffirm our commitment to create opportunities for more women to develop and lead in this industry. We want to be an active part of building a future where equality and talent are the drivers of change for the next generation"*.

### About Ellas Vuelan Alto

EVA is an association formed by professionals in the aerospace sector with the aim of promoting equality and giving a voice to women. Our mission is to consolidate the visibility of women in the aerospace sector in Spain, covering the political, university, business and administration fields, based on the vision of equality expressed in the United Nations Magna Carta,

ENGINEERING  
DRIVEN  
PEOPLE

*Ellas* VUELAN ALTO

and the Administration, based on the vision of equality of the Magna Carta of the United Nations.

#### **Sobre CT**

CT es una empresa líder en ingeniería a lo largo de todo el ciclo de vida del producto. Durante más de 35 años, nuestra misión ha sido proporcionar servicios innovadores y soluciones tecnológicas que ayuden a nuestros clientes a ser más efectivos y competitivos. Hoy en día, el éxito de CT está impulsado por más de 2.000 ingenieros repartidos en siete países, que proporcionan servicio especializado integral a clientes líderes en los sectores aeronáutico, espacial, naval, automotriz, ferroviario, energético y de plantas industriales.
